

The Benefits of NK Foundation Training

- Even at an introductory level our courses have been developed with the practitioner in mind
- You will gain an excellent foundation into Traditional Chinese Medicine and how kinesiology can make use of this comprehensive system
- You will be able to balance various areas of the brain related to processing at the conscious, emotional processing and instinctual level
- You will understand the relationship between basic energetic anatomy and behavioural traits, and how to work with these discoveries
- You will be able to work with the 3 most important neurological organisations in the body, the brain, heart brain and enteric nervous system
- This is an excellent way to test your interest and discover if kinesiology is for you, and work at a pace that suits you.

If you are an exiting practitioner of a health modality, this is an excellent way to add some new skills or as a new foray into alternative healing practice

make the unknown known

The **NK Institute** delivers modern, cutting edge kinesiology training from beginner to advanced.

We have been acknowledged with one of the most comprehensive kinesiology systems in the world.

Since founder and developer of Neuroenergetic Kinesiology, Hugo Tobar began training in 1998, our courses have been taught internationally to a consistent flow of practitioners at all levels of experience.

The **NK Foundation Training** is made up of the units we consider will give you enough skills to facilitate powerful healing change in your friends family and acquaintances, and if you decide to further your studies, all these units count toward further qualifications.

The Units Comprising the NK Foundation Training
